1. Background

The Prevention of Money Laundering Act (PMLA) 2002 came into effect from 1 July 2005 through a Gazette of India notification of even date. As per the PMLA 2002 read with Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 including any amendment thereof (PMLR 2005) (PMLA 2002 and PMLR 2005 will together referred to as PMLA), the offence of Money Laundering is defined as:

“Whosoever directly or indirectly attempts to indulge or knowingly assists or knowingly is a party or is actually involved in any process or activity connected with the proceeds of crime and projecting it as untainted property shall be guilty of offence of money-laundering. "Proceeds of crime" means any property derived or obtained, directly or indirectly, by any person as a result of criminal activity relating to scheduled offence or the value of any such property.”

Reserve Bank of India (hereinafter ‘RBI’), one of the regulatory agencies entrusted with the responsibility of driving the anti-money laundering initiatives advised NBFCs to follow certain customer identification procedure for opening of accounts and monitoring transactions of a suspicious nature for the purpose of reporting it to appropriate authority. RBI revisited these guidelines from time to time keeping in view the recommendations of Financial Action Task Force (FATF) on Anti Money Laundering (AML) standards and on Combating Financing of Terrorism (CFT).

RBI came up with detailed guidelines based on the above and the instructions issued on Customer Due Diligence (CDD) for Non-banking Financial Companies by the Basel Committee on Banking Supervision. RBI advised NBFCs to ensure that a proper policy framework on ‘Know Your Customer’ and Anti-Money Laundering measures with the approval of the Board is formulated and put in place. Accordingly, Magma Fincorp Limited (‘Company’, ‘Magma’) has put in place a Board approved policy on Anti Money Laundering measures and KYC Norms (the Policy). Based on the experience gained over the past years, the Policy is proposed to be reviewed and improved keeping in view the Master Circular on the subject issued by RBI on 1 July 2014, the revised guidelines vide circular no RBI/2014-15/330 DNBR (PD).CC. No. 005 /03.10.42/2014-15 dated 1 Dec 2014 and Know Your Customer (KYC) Direction, 2016, as amended from time to time, (‘RBI’s Guidelines’) which is to be read along with the extant Directions issued by the RBI in this regard or any other applicable law in force. The Company shall further ensure compliance with the provisions of Prevention of Money-Laundering Act, 2002 (“Act”) and the Prevention of Money-Laundering (Maintenance of Records) Rules, 2005 (“Rules”), as amended from time to time, including operational instructions issued in pursuance of such amendment(s).

ix. To ensure security, robustness and end to end encryption, the Company shall carry out software and security audit and validation of the V-CIP application before rolling it out.

x. The audio-visual interaction shall be triggered from the domain of the Company itself, and not from third party service provider, if any. The V-CIP process shall be operated by officials specifically trained for this purpose. The activity log along with the credentials of the official performing the V-CIP shall be preserved.

xi. Company shall ensure that the video recording is stored in a safe and secure manner and bears the date and time stamp.

xii. The Company shall ensure to redact or blackout the Aadhaar number.

Annexure II

Process of Offline Verification

UIDAI has launched Aadhaar Paperless Offline e-KYC Verification to allow Aadhaar number holders to voluntarily use it for establishing their identity in various applications in paperless and electronic fashion, while still maintaining privacy, security and inclusion.

UIDAI provides a mechanism to verify identity of an Aadhaar number holder through an online electronic KYC service. The e-KYC service provides an authenticated instant verification of identity and significantly lowers the cost of paper based verification and KYC. However, this method of online e-KYC is not available to all agencies and may not be suitable due to some of the following reasons;

- Online e-KYC requires reliable connectivity
- Agency needs to have technical infrastructure to call online e-KYC service and deploy devices (as necessary)
- The resident may need to provide biometrics for the online e-KYC
- UIDAI maintains a record of the KYC request for audit purposes

Advantages of Aadhaar Paperless Offline e-KYC Privacy:

- KYC data may be shared by the Aadhaar number holder directly without the knowledge of UIDAI.
- Aadhaar number of the resident is not revealed, instead only a reference ID is shared.
- No core biometrics (fingerprints or iris) required for such verification
- Aadhaar number holder gets a choice of the data (among the demographics data and photo) to be shared.

Security:

- Aadhaar KYC data downloadable by Aadhaar number holder is digitally signed by UIDAI to verify authenticity and detect any tampering.
- Agency can validate the data through their own OTP/Face Authentication.
- KYC data is encrypted with the phrase provided by Aadhaar number holder allowing residents control of their data.

Inclusion:

- Aadhaar Paperless Offline e-KYC is voluntary and Aadhaar number holder driven.
- Any agency working with people can use it with consent of the Aadhaar number holder allowing wide usage.

Aadhaar Paperless Offline e-KYC eliminates the need for the resident to provide photo copy of Aadhaar letter and instead resident can download the KYC XML and provide the same to agencies wanted to have his/her KYC. The agency can verify the KYC details shared by the resident in a manner explained in below sections. The KYC details is in machine readable XML which is digitally signed by UIDAI allowing agency to verify its authenticity and detect any tampering. The agency can also authenticate the user through their own OTP/Face authentication mechanisms.
